ACHC and CarepathRx Partner to Advance Hospital Pharmacies

Cary, N.C. – Accreditation Commission for Health Care (ACHC) announced today it has entered into a partnership agreement with CarepathRx, a leader in medication management solutions for hospital and health system pharmacies.

“Both ACHC and CarepathRx are committed to advancing the role hospital and health system pharmacies play in their communities,” said Jon Pritchett, ACHC program director. “This partnership strengthens our shared focus of optimizing pharmacy operations and improving patient outcomes.”

“Specialty and infusion pharmacies who achieve ACHC accreditation gain contracting influence with both payors and manufacturers, credibility with referral sources, and differentiate their provision of care over competitors, as well as assure all stakeholders of their organizational competencies,” said Keith Crawford, Chief Strategy Officer of CarepathRx. “We are very pleased about this partnership with ACHC as we believe it will help our health system partners quickly align their services with industry best practices.”

The collaboration gives CarepathRx affiliates special pricing on ACHC Specialty and Infusion Pharmacy Accreditation and discounts on ACHCU educational resources that support the accreditation process.

About CarepathRx

CarepathRx is transforming pharmacy care delivery for health systems and hospitals across the U.S., delivering improved patient outcomes that drive clinical, quality, and financial results.

As a leader in pharmacy and medication management solutions, CarepathRx is turning hospital pharmacy into an active care management strategy and revenue generator while providing support across the patient’s complete healthcare journey. Currently, CarepathRx serves more than 15 health systems and 600 hospitals.
