mumms Software Awarded ACHC Product Certification

CARY, N.C. – Accreditation Commission for Health Care (ACHC), a leading national healthcare accreditor, announces it has awarded product certification to mumms Software, a developer of electronic medical record (EMR) software specifically for hospices.

“ACHC and mumms are deeply committed to supporting hospice organizations,” said Susan Mills, ACHC Senior Program Director. “Achieving certification validates the quality of mumms’ products and highlights their dedication to providing the best EMR technology solutions for hospice providers.”

“Since founding mumms, we have continually strived to deliver excellence in solving the hospice industry’s greatest challenges,” said Leo J. Radosta, CEO, mumms Software. “The ACHC Product Certification affirms that mumms SmartChart adheres to the highest quality and regulatory standards.”

Certification confirms mumms products meet ACHC Standards in seven areas: administration, operations, fiscal management, human resources, provision of care and record management, quality, and risk management.

About mumms Software

mumms Software is a privately held company founded in 1989 in New Orleans, LA. mumms is dedicated to providing leading-edge technology to the hospice community. To date, the company has served thousands of single- and multi-site organizations operating in the contiguous United States and Puerto Rico.
