

TRANSITION TO ACHC

ACCREDITATION AS EASY AS 1-2-3

 AMBULATORY SURGERY CENTER

Change for the better. When you choose Accreditation Commission for Health Care (ACHC) for your ambulatory surgery center accreditation, you can be confident that we'll tailor the process to your needs and goals to make the transition run smoothly.

1

Contact an ASC Customer Care Specialist and Receive a Quote.

Start by talking with a live person to get your questions answered. We'll tailor your accreditation experience to your organization's size and specific needs. Plus, just fill out a quick form to receive a quote and know your costs beforehand. No surprise fees with us.

2

Complete Your Application.

After you sign your quote agreement, your dedicated Account Advisor will help you access our customer portal and will guide you through the application process. You'll gain access to the ACHC Standards, too.

3

Get Survey Ready With Onboarding and Education.

Our Clinical Educators will help set up your ASC for success. They will meet with you to discuss your ASC's needs, including guidance for a smooth transition away from specific accreditors. You will also get access to educational resources suited to your goals. Then you'll be ready to experience the ACHC difference with an educational and collaborative survey experience.
