ACHC and RBS Solutions Partner to Support Pharmacies

CARY, N.C. – Leading accreditor Accreditation Commission for Health Care (ACHC) announced today it is partnering with RBS Solutions, a national pharmacy consulting firm committed to driving accreditation success and operational excellence.

“ACHC and RBS Solutions are mutually dedicated to supporting the interests of specialty and infusion pharmacies,” said Matt Hughes, ACHC Vice President of Community Care. “Pharmacies play an essential role in improving patient outcomes. Our new relationship with RBS Solutions highlights a shared commitment to elevating compliance with recognized industry standards for quality and safety.”

“We are excited to collaborate with ACHC to further support our clients in achieving their accreditation goals,” said Rob Jeffrey, Owner of RBS Solutions LLC. “This partnership emphasizes our commitment to empowering pharmacies with the resources, guidance, and expertise needed to uphold the highest standards in health care. Together with ACHC, we are dedicated to helping our clients enhance patient care, streamline operations, and navigate the complexities of accreditation compliance with confidence.”

The partnership gives RBS Solutions customers special pricing on ACHC Pharmacy Accreditation for specialty and infusion services. Discounts on select ACHCU educational resources are also available.

About RBS Solutions

RBS Solutions LLC is a trusted leader in pharmacy consulting, specializing in accreditation, compliance, and operational optimization. Since 2012, we have partnered with over 450 pharmacies nationwide, providing personalized consulting services that ensure adherence to the highest industry standards and accreditation requirements.

With a team of experienced consultants, we guide pharmacies through the complexities of regulatory compliance, helping them achieve and maintain accreditation while enhancing operational efficiency. Our goal is to streamline processes, improve patient outcomes, and foster long-term success for our clients.
