ACHC Partners With HOTB to Simplify Accreditation and Support Continuous Improvement in Ambulatory Surgery Centers.

CARY, N.C. – Accreditation Commission for Health Care (ACHC) announced today their new strategic partnership with **HOTB Software Solutions**, creator of cloud-based compliance and workflow management platform CoreCompli. The collaboration is rooted in their shared commitment to simplifying the accreditation process, promoting ongoing compliance and fostering a culture of continuous improvement at ASCs.

“Our partnership with ACHC creates a powerful synergy that streamlines accreditation and supports continuous compliance,” said **Jason Connolly**, President of HOTB Software. “By integrating ACHC content throughout the CoreCompli platform, we’re giving healthcare organizations the tools they need to stay survey-ready, enhance patient safety, and reduce administrative burden. This collaboration is about driving real value for providers through smarter, more efficient compliance workflow solutions.”

“At ACHC, we're committed to simplifying the accreditation process and providing exceptional customer service,” said Patrick Horine, Vice President of Acute Care at ACHC. “Our partnership with HOTB allows us to serve both goals by increasing access to our compliance standards through the CoreCompli platform.”

HOTB’s CoreCompli platform assists healthcare organizations in achieving and maintaining compliance using real-time operational tools and predictive analytics. By combining this technology with ACHC’s trusted accreditation standards, the partnership makes the accreditation process easier and promotes safer and higher quality care at ASCs.

About HOTB Software Solutions

HOTB is a leader in cloud-based healthcare compliance and workflow automation. Its flagship platform, **CoreCompli**, supports organizations in their management of accreditation tasks and continuous operational improvement by leveraging innovative digital tools. Trusted by a wide range of providers, HOTB helps reduce both the administrative burden and complexity of the accreditation process.
